  - EBITDA per ton at Rs2,972/Ton
- Net Profit declined by 38% YoY to Rs2.5bn

### Mr. Sanjay Gupta, Chairman, APL Apollo, comments on Q2FY25 results

“The company has announced its highest ever quarterly sales volume of 758,267 Ton in Q2FY25. This was despite weak demand conditions for the construction material sector due to the volatility in raw material prices, extended monsoon and ongoing slowdown in government infrastructure spending. However, our profitability was severely impacted by volatility in steel prices. In our view, the worst is behind us as the lower steel prices have given a massive opportunity to APL Apollo to take market share from low-grade sponge iron made steel pipes. We are ready with our 4.3mn Ton annual capacity which shall expand to 5mn Ton by end-FY26. Our focus remains on innovative products and providing the best customer

experience to further enhance our leadership. We continue to remain prudent with our working capital management, which remains best in the construction material sector"
